Butterflies Will Not Be Displayed Here

Because they are not of local origin, the famous butterfly collection, once the pride of the McGlashan museum in Truckee, will likely continue to deteriorate in the corridors of the courthouse at Nevada City.

Supervisor H. G. Loehr last week advised the Nevada County Board of Supervisors that the division of beaches and parks, which had indicated an interest in placing the collection in the new Donner Park Museum, declined the collection because it is not local.

Many of the butterflies were secured in South America and other parts of the world. They were taken to the courthouse for "safekeeping" when the old rocking stone tower, where they were stored, was allowed to crumble.

State To Maintain Two Quarantine Stations In District

Truckee will have two inspection stations after the new freeway is completed through this area late this year. The present station will be continued in operation to provide inspection coverage for those vehicles entering the freeway from Truckee or from the Lake Tahoe Area.

The bureau of plant quarantine has made arrangements for additional personnel required to operate the new station.

The division of architecture, state department of public works, has requested contractors to submit bids for the construction of a new plant quarantine inspection station for the department of agriculture about two miles west of Truckee in Nevada County.

Sealed bids must be submitted to the division of architecture on or before 2 p.m., June 16.

This project, consisting of two one-story buildings, will provide for new inspection facilities adjacent to the new freeway through the Truckee area. Plans call for a modern building with features especially designed to facilitate the clearance of heavy vehicular traffic which will move over this transcontinental route.

The inspection area will consist of a plaza to include five wide inspection aisles. For the convenience of travelers and as an aid in inspecting procedures, these aisles will be built directly over the traveled portion of the highway. Office and rest room facilities will be situated in the divider strip between the incoming and out going traffic lanes.

The construction of the inspection station is being coordinated with the new highway developments so that the building will be available when the new freeway is opened. Specifications for the project stipulate that the new station will be completed on or before December 15, 1959.

SUNBEAMS

By WALTER M. BARRETT

For obvious reasons, the final date for obtaining paint at dealer's cost to wind up the chamber of commerce sponsored cleanup, paintup campaign has been set for next Monday. Dealers have been generous in providing paint throughout the past several weeks but cannot be expected to continue this non-profit deal longer. Those who have not yet taken advantage of this offer to paint their homes or business—and there are too many who have not—are urged to do so immediately. There are a lot of buildings, many of them quite unsightly, which should be painted and although the project is continuing with the cooperation of the committee, the rush of summer activities will prevent more than token assistance from the organization which has done a terrific job. Start that paint job today and help make Truckee more presentable.

Youth Sought In Robbery Series At Donner Lake

Damage Discovered As All Points Bulletin Out For Youth

An all-point bulletin has been issued for the arrest of a 17 year old Soda Springs youth wanted for questioning in connection with the theft of thousands of dollars worth of property from 22 homes in the Donner Lake area.

Suspicion turned to the boy when deputies sheriff conducted an intensive investigation at each of the reported robbery scenes. He was tied into the alleged crimes, Chief Deputy Roy Waters said, when plaster casts were made on tire marks at the Harold P. See home, which was the scene of one of the burglaries.

The tire casts matched those on the youth's jeep but when he was questioned last week he emphatically denied any crime although admitted he had been in the vicinity fishing.

A screw driver found in the jeep, Waters said, apparently had been used as a tool for forcing windows at a number of summer cottages, which were burglarized during the winter and from which thousands of dollars worth of loot had been taken.

The investigation was conducted by deputies Patnoude, Lander, Schooley and Zander.

Much of the loot taken from the See home, including a set of encyclopedia, clocks, radio, table lamps and other items were thrown into Donner Lake. Holes were knocked into the bottom of a boat and it was set adrift. A floating dock was damaged and $652 worth of personal items were taken from the cabin and grounds.

An outboard motor was found in the lake just off the end of the pier.

At the end of that period the two state owned ski lifts, Papoose Peak Lift and Squaw Peak Lift No. 2, and all of the 770 acres with the exception of approximately 35 acres in the beginners ski area, revert to the state for operation. The beginners area has been leased by the Olympic Commission to the Squaw Valley Development Company for 30 years, ending May 22, 1988.

"Nothing is more important than creating lasting goodwill among our visitors," Disney said, "and we shall do everything we can to make their stay a happy one."

Plans to date include the running of newsreels and movies throughout each day in two theaters, and nightly spectaculars in the spacious athletes center. For 10 days prior to the opening of the games, the committee has outlined a program of movies, dancing and shows featuring amateur talent from the ranks of the competitors.

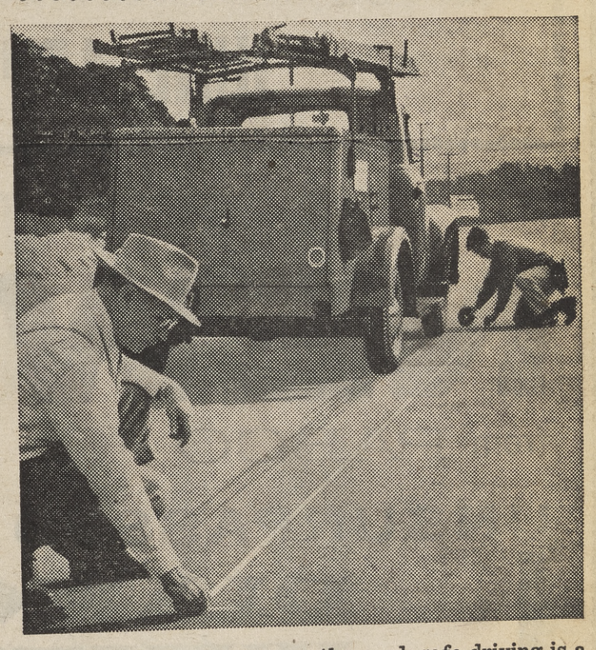
WHAT'S DOING

E. J. Bean, your Telephone Manager in Truckee-Tahoe.



With more and more cars on the road, safe driving is a big part of any telephone man's job. Take our telephone installers for example. Each installer takes a special course in "defensive driving" before he gets behind the wheel of any telephone company car or truck. And to make sure he doesn't forget the things he's learned, he takes a check-up ride periodically, and a complete driving test every 2 years. What's more, he even has his eyes tested every 3 years. Other telephone people who drive company cars also get training in "defensive driving". This extra care helps us to be better drivers and do our part to make the streets safer for everyone. And we believe we serve you best when we serve you safely.

Summertime is a popular time for moving. And if you're planning to move soon, here's a reminder. When we install your new service, we're glad to put in an extension phone (or two or three) at no extra installation charge. The charge to move your present phone covers the installation cost of all the extensions you'll need in your new home. **Pacific Telephone**

This Sunday is Student Sunday and an offering will be received for the scholarship and loan fund for college students.

The Sermon for this Sunday will be "How Important Can You Get?"

James and John had a request to make of the Lord—not unreasonable from their point of view—that they should be given a special place in the Kingdom. Jesus answer puts them, and us, in our true place.

The official board meets Sunday after church. It is important that as many trustees, stewards and other church officers be there as possible. Rev. Langguth will act as convener, and we will elect our board officers.

The pastor wishes to express his thanks to Carl Brooks and to Jackson Brandt for the splendid work they did on our grounds.

We seek, in many ways, to build a new earth. The phrases, "Our World," "The Family of Man," "The Reign of Peace" express the hopes and dreams of responsible people everywhere. But will the concerns and ideals of contemporary religion support such a new world? Is the old heaven capable of producing the dynamics needed to give wings to the ambitions of the new earth? Pastor Taylor will discuss these questions in Sunday's sermon entitled, " A New Haven."

DONNER DOINGS

BY VIRGINIA O' BEAR

John Burger of Nevada City, is living and fishing at Donner now in between working hours at the Shell station in Truckee. John has been a friend of the Stewarts for years and says he knows now why they like Donner Lake so well.

* * *

Mr. and Mrs. John C. Walker of Healdsburg, parents of our sanitarian, Richard Walker, are visiting with Dick and Jean in their new home at Donner Lake. Dick's father just returned from Venezuela after being there for two months as chief engineer for Crown Cork International. Mrs. Walker had an enjoyable time last Sunday when she accompanied Jean and Dolly Harris on a trip around Tahoe when they were working on the Boat Race program.

* * *

Quite a few proud mothers of Donner journeyed over to the Nevada Lodge at Tahoe last Thursday to watch our small fry perform for the Women's Club of Tahoe. Miss Rene Hall presented 16 numbers with 27 of her young pupils doing various numbers. Miss Hall danced two Hawaiian numbers for the finale.

* * *

Mr. and Mrs. Al Swanson, (Al is a brother of Mrs. Frank Stewart) of Saint Paul, Minnesota, will be here this week at Donner. Mrs. Stewart will go with them to Visalia next week to pick up another brother then they will go on to Hollywood to meet an aunt, Mrs. Julie Swanson and have a family reunion. Al Swanson is a co-ordinator and good will ambassador for a large steel corporation in St Paul.

* * *

Mr. and Mrs. Charles O'Bear, Sr. of Santa Rosa are visiting with the O'Bear Jr's and have been having a lot of fun fishing. I have heard all kinds of fish stories in my life but the one mom came home with yesterday really takes the cake Mom caught a ten inch trout and just as she lifted it into the boat the trout spied a hole in the bow of the boat and jumped through the hole which was about the size of a golf ball. The hole isn't clear through the boat as it is one of those fibreglass molded jobs with two walls. The trout is trapped in between the walls and it is impossible to get him out without cutting a larger hole, or maybe if we keep trying we can get it out with a wire or something. It's needless to say that if we don't get the fish out, even if we do not see it, in a few days mom will be able to prove this fish story!

* * *

The O'Bear Jr.'s are real popular this week. Besides Mom and Pop, Mrs. O'Bear Sr's brother, L. J. Heitz and her nephew, C. A. Heitz of Healdsburg, will be guests at Donner for awhile as the fellows have a month vacation and plan to take back some kokanee and mackinaw to their home town. Sure hope this weather continues to be nice. My sister Mary and my little niece Suzi, were up from Thursday until Sunday from San Francisco.

* * *

The Donner Regatta promises to be bigger and better this year. The decorating committee, Mrs. A. St Claire, Mrs. C. Z. Smith and Mrs. Robert Affeldt, chairmen, have been working hard and have some mighty fine ideas on making everything colorful and a big success. The barbecue seems to be well in hand and the ladies will be serving a delicious chicken dinner on July 11 between the hours of 4 p.m. to 7 p.m. If you did not get in on the barbecue last year I'm sure you have heard about it and will want to get your tickets early to be sure you won't be left out.

* * *

Arrangements were made this week with KOLO-TV for our Miss Donner Lake and her princesses and the court to be on Carol Guild Show on July 8, at about 4 o'clock. Also arrangements were made with Channel 3 in Sacramento, KCRA for the girls to appear on the Millie Sullivan show on July 10 around 5 o'clock. The girls will each be interviewed and questions asked concerning the Regatta and the barbecue. Also the big Firemen's Ball to be held at Donner Lake Lodge. Be sure and watch our girls and tell all your friends to come up that weekend.

The Diamond Boat Company of Reno leased the beach from the Donner Lake Development Company and had a god size crowd for their first weekend of being in business here. Plans are in progress for improving the beach and making it more enjoyable for all.

The eight-spired Tudor Gothic tower of St. Dominic's Church in San Francisco, rises to a height of 175 feet.

NORTH TAHOE

By JUDGE HARRY CHARRISON

WEATHER

We have been having the same beautiful weather with just a slight breeze blowing in the afternoons. Today the Lake is a glittering ocean of blue.

FLORIDA BOUND

Just received a nice letter from Doug and Addie Free who with their son, Larry, were at the time in Santa Rosa, New Mexico enroute to Madiera Beach, Florida. They plan on staying there for the summer if the humidity is right for them, otherwise they will return to California. We will miss them up here but hope the change will help Doug in regaining good health again. We are all wishing them the best whereever they go.

GIFT SHOP

Dale and Mex, are taking over the management of the Gift Shop in the Cal Neva Club and with their experience they should be very successful. We sincerely hope so.

LEAVE UP

Davey Ashton who was home on a fifteen day leave from Long Beach where he is aboard the Hospital Ship, USS Haven, recovering from another dislocated shoulder, returned last Saturday. Davey had a wonderful time with his old pals also having good luck fishing. He expects to be discharged from the Navy late in August and is looking forward to returning to home life again.

FROM AUBURN

Mrs. Al Broyer was up for several days, staying at the Ludlows enjoying the beautiful swimming pool, visiting Crystal Bay and the South End, also entertaining several of her friends. She really enjoyed every minute of it and would like to have stayed longer.

IN HOSPITAL

We are sorry to hear that Dave Hall has been critically ill in the Washoe Medical Center in Reno. While being prepared for a back operation his heart stopped and was operated upon and given artificial respiration bringing him back to life. He is now out of the critical ward and improving slowly. He will spend quite a length of time in the hospital. Winnie spends a great deal of time in Reno with him and reports that he can receive visitors now. We hope Dave will make a speedy recovery. We sincerely wish him the best.

OPENING

The Buckhorn Inn opening was a great success, according to Gwen Robinson, secretary of the Chamber of Commerce. She says if you didn't get to the opening you should drop in, everything is beautifully decorated and the food real good.

TOP NOTCHER

Craig Robinson, son of Gwen and Robbie Robinson, is one of the up and coming young baseball players these days. He is having a hard time trying to decide whether he will go to school or play baseball. Last Friday Oregon State College at Corvallis flew him there to look over the campus. They have offered him a scholarship. Many of the big league baseball scouts have been keeping an eye on him as he is an outstanding young player. Craig will graduate from Tahoe Truckee High this week where he was on the team. We are mighty proud of him as we know he will really go places in baseball.

TO L. A.

Mr. and Mrs. Harvey Klitzke, Sr. went to Los Angeles for a few days to attend the funeral of Mrs. Klitzke's sister who had been quite ill for the past few months. They were glad to get back out of the smog. and away from the freeways.

ILL

We are very sorry to report that Thelma Little is not doing very well and it is necessary for her to remain in bed most of the time. Mrs. Dallas Hughes is nursing her during the day and says she may have visitors. Our warmest love and prayers are for Thelma.

Tahoe Items

Being welcomed back to Tahoe City by their family and friends are Mr. and Mrs. Angelo Bonino who wintered at Pittsburg.

E. M. Frost of Fontana will spend the summer at Kings Beach.

Mrs. Georgia Lambert has moved from Auburn, renewing friendships at Tahoe City.

Jesse Corner, 25 and Emma Rea Howard 18 both of Kings Beach were issued a marriage license at Reno, Nevada.

Mrs. Jody Maher is at Meeks Bay after spending the winter at Palm Springs.

Mrs. M. Necessary of Los Angeles wrote that her address is now changing to Carnelian Bay.

Mr. and Mrs. Ralph Peer have again opened their place, White Firs at Tahoma.

Daily arrivals are taking down shutters and preparing for guests at their lake homes including Mr. and Mrs. John Huber and grandson, Kenny Parks of Marysville who are occupying their Tahoe City house for the summer. Also staying here for the summer months are Mr. and Mrs. A. Rodriques of Auburn.

Mr. and Mrs. Roy Stark of the Dollar estate at Tahoe City have had as their house guest their grandson, Darryl Stark who is stationed with the U. S. Navy at New York. The young man attended the graduation of his sister, Mary Ann Stark at Williams, California while on leave.

LAKE LEVEL

TAHOE CITY — On Monday the level of Lake Tahoe stood at 6228.13, subject to revision, with all gates into the Truckee river closed. The temperature has varied from a cool 32 to a high of 75 during the week, according to Art Frodenberg, cooperative observer from the Truckee Carson Irrigation District.

CHANGES ARE MADE IN HUNTING SEASON

A switch in 1959 buck season dates to help minimize possible damaging effects of the past dry winter, including a deer feed shortage and a high fire hazard, highlighted a two-day meeting of the fish and game commission in Sacramento.

The deer season this year (all dates inclusive) will be:

Early Season, (mostly coastal area) — July 25 to Sept. 13.

Inland Season—Sept. 26 to November 1.

The bag and possession limit will be the same as last year except that all of Los Angeles County will be in the one-buck area.

The boundry between the two-buck and one-buck areas will remain the same as last year, except for a change in Siskiyou County where the eastern boundary of the two-buck area was moved easterly to U. S. Highway 97 from Weed north to the Oregon border.

A shortage of feed in the coastal area, brought on by a water short year, was cited as the reason for opening the Early Season earlier than usual and adding one week to its length. It will be seven weeks long this year, instead of six. Commissioners pointed out it will be better to permit hunters to harvest the deer rather than let many of the animals succumb to disease and starvation next summer and winter.

At Folsom—

Mr. and Mrs. Lorrin Ferdinand and girls were Sunday visitors at Folsom.

Marriage License—

Miss Phyllis Carter of Truckee and Donald White of Reno were issued a license to marry at Reno, Nevada.

LOCAL SCHOOL WILL SHARE STATE FUND

California's secondary schools will get a $372,000 boost this spring in their continuing efforts toward maximum use of a student learning power.

Roy E. Simpson, state superintendent of public instruction, announced first allocations from the fund, made available for distribution by the state department of education under Title V of Public Law 864.

Among the 57 allocations listed today is $200 to the Tahoe Truckee School District.

More than 150 applications for the funds received by the February 28 deadline. In addition to the 57 allocations announced today, totaling $131,166, another will be announced next week. Action on the remaining 53 is anticipated following modification of the applications.

The money will be used to develop local programs for identification, guidance and encouragement of students with outstanding aptitudes and abilities. Public Law 864 contemplates financial assistance to states over a four-year period. The law, passed by the 85th Congress, is an effort to meet the need for capable persons in science, mathematics, languages and technical occupations related to the national security.

PARK COMMISSION

Continued from Page 1

the actual operation of the feeding and housing facilities in competition with other private enterprises but intended to operate such facilities through a concessioner. A combined operation under a single master concessioner, is the most desirable arrangement according to expert consultants.

It is the intent of the state to include in the concession all of the structures and plant facilities, with minor reservations for park use, to be granted to a concessioner on a long term agreement to include interior and exterior maintenance as well as all plant maintainance and operation. The assignment of state personnel will be made at a level adequate to insure acceptable operations and maintenance by the concessioner as stipulated in the concession agreement.

The state hopes to contract with a qualified operator who will be prepared to commence operations by April 1, 1960. A sample concession agreement is being prepared. The sample agreement is expected to be available on July 1, 1959 and contract negotiations should begin immediately thereafter with the goal of having a completed, signed and approved agreement by September 1, 1959.

This will allow the concessioner a period of seven months in which to establish an operating organization. The division of beaches and parks hopes to negotiate an agreement with the best and most qualified operator rather than advertising for bids. The concessions officer of the division may be contacted regarding the negotiations.

Special interest groups seeking to use a portion of the facilities at Squaw Valley are informed that the state is without authority to permit such special uses and will be unable to give consideration to requests for special use. As soon as a concessioner is assigned, arrangements for group and other uses are to be made through the concession management.

"Butch" The Sierra Beaver Sez:

Had a long visit with Smokey the Fire Prevention Bear. He said to me, "Frankly Butch I'm worried, we have a very dry year and my fire prevention job is sure to be a tough one, and I'll need all the help I can get. Will you fellows increase your vigilance and help our many visitors to be careful with fire?" I said, "Sure thing Smokey you can count on us. We have already gone up to the Ranger station and signed up to help. Smokey said, "Fine Butch, well say hello to Chris and Nancy and all the boys and girls at the lake and tell them I'm expecting them to help also. Bye, Bye and I'll be seeing you along the trails, streams and lakes.
